Description

The Oceanis 35.1 combines performance and comfort at sea. The Oceanis 35.1 interiors have been rethought and their exteriors re-designed, delivering significant developments and offering a choice of four versions in all.

EXTERIOR DESIGN

The chined hull by the architects Finot-Conq stands for comfort and good balance under sail, making a particularly noteworthy entry into the market for this size of boat.

With twin rudders, masts positioned further aft, and optimized sail plans, the 35.1 delivers excellent performance and offers incredible stability underway.

INTERIOR DESIGN

For the Italian design team, the challenge was to multiply the living spaces in the saloon and offer greater privacy in the owner cabin, while maintaining the visual perspective that her opening to the bow offered in previous versions.

The new L-shaped galley makes a facing seat saloon arrangement possible. The space has been well optimised to allow eight people to sit around the table.

MAXIMIZE SPACE

The chart table has been redesigned.

Practical and effective, it folds away to leave more room in the saloon.

Designed to suit a variety of sailing programmes and increasingly different lifestyles on board, the Oceanis 35.1 is available respectively in 4 versions with varied layouts: number of cabins and bathrooms, modularity of the saloon, choice of galley, storage capacity, etc.

Engine Notes

This particular 35.1 is now in its second owner. She is just the vessel to get started on a larger vessel and is more than capable of sailing from Maine to Florida with comfort and style.
